

**ACCESS ELEVATOR SUPPLY**

*Expertise and Service Set Us Apart*

It's Here.....

Access Elevator Supply now offers Replacement Logic Boards for Siemens Class 72G Elevator Soft Starters. Easy to install and lightweight to ship, these logic boards are a convenient solution to a unit that has failed in the field. No need to remove the whole starter, simply replace the logic board and you're up and running. This board fixes over 90% of all starter failures. Best of all, there's only one universal board so, no matter which model of Class 72G starter you have, the same board fixes them all. After

installation,

simply use the starter keypad to configure the replacement logic board for the particular model of starter.

Return the old logic board to Access and receive an immediate \$50 credit to

your account.
